EDUCATION

PhD in Health Data Science, Faculty of Medicine – University of Porto Sep 2025 – current

MSc in Medical Informatics, Faculty of Medicine / Faculty of Science – University of Porto 2025

BSc in Nursing, Nursing School of Porto 2020

WORK EXPERIENCE

Research and Innovation Manager Jan 2026 – current
VirtualCare *Porto*

- Contribution to national and international project applications relevant to the company's products.
- Active role in the management of 7 funded projects, here highlighted 3 of them:
  1. **MyHealth@MyHands** – Project aiming to improve digital healthcare in the EU by ensuring universal and interoperable access to online health records by 2030. My role includes defining the development of an obstetrics use case focused on cross-border data exchange of pregnancy records, ensuring alignment with EU interoperability frameworks (EHDS, Digital Europe Programme). My role: steering the development of an obstetrics use case, involving cross-border data exchange of pregnancy data.
  2. **HealthChain - RecoMed** – Innovation model that is demand-driven, co-creative, geared for adoption and ecosystem enabled. My role includes designing, implementing, and evaluating a medication reconciliation system that needs to interoperate with prescription systems and hospital information systems.
  3. **MedGPT** – Embeds ethical AI and GDPR/MDR compliance, utilizing European-based LLMs to set a standard for Medical GPT globally. My role: leading the national consortium in developing obstetrics EHR use cases with LLMs.

Business Developer Nov 2023 – Dec 2025
VirtualCare *Porto*

- Product presentations to key clients, including CEOs, executives, and technical professionals.
- Promote and coordinate partnerships with other institutions (companies, healthcare institutions, NGOs, Ecosystem Innovators).
